TUVAA's
Warrior Ancient Greek

Course Description: Warrior Ancient Greek is designed to connect the fundamentals of the western Civilization languages and to expand the academic language vocabulary in English, Spanish, French, Latin, Russian, and Dutch. To know a connection of the ancient with the modern is powerful in the world of academic engagement. Learning becomes so much fun when symbols and phrases and knowledge from centuries past are understood by the voices of today. Students will be able to adapt the fundamental root words to current scientific and common language that is shared withing different cultures. Our Ancient Greek Warriors can read the rocks and scrolls of the ancients. They can also identify what fraternity to visit when they hit the collegiate scene!

Objectives: Students will Know the basic foundations of Ancient Greek language and connect their roots with mathematical, lingual, political, religious, and economic codes of communication.

Students will Know how to adapt Ancient Greek knowledge to problem solving in social, academic, athletic, and economic verticals.
