

The Wild Penguins' Program and Protocols

**Respect Self,
Respect Others,
Respect the Process!**

**Learn How to
Adapt,
Improvise,
Overcome!**

**We Can
Keep the Planet Green
and Play!**

The Wild Penguins' Mission

I.

The Wild Penguins Program is a Global Educational Program designed to create positive global citizens via sports engagement and cultural collaboration.

II.

Participants develop various level of multiple intelligence that provide productive, creative, self-confidence, and social leadership.

III.

Individual success and global respect for self, others, and the processes is the Mode of Operation by all students, players, teachers, coaches, administrators.

IV.

We can be good to one another as we are good to ourselves. To know how to dream, to know how to fight for what is right, to know how to share the joy... These are the goals of the Wild Penguins' Waddle.

The Wild Penguins' Tour

The Wild Penguin Tour is an active, engaging, globally connective opportunity to develop the skills of respect for self, others, and the process via a simple game of catch, throw, and hit.

Communities come together to socialize, play, eat, compete, dance, and sing in dynamic memorable engagement that is not restricted by culture, politics, economic diversity, physical competitiveness, or intellectual ability.

The proper formula for education, recreation, competition, and celebration is offered by the leadership of the Wild Penguins organization.

Organizing a date, finding a facility, and coordinating positive participation by athletic, educational, social, and economic groups is the tour process of development.

Managing a prosperous productive and positive event is the Game Plan and the Objective of the Wild Penguin Leadership.

**Smiles and Gleams in the Eyes are
the Ultimate Prizes at the End of the Event.**

These Prizes are Priceless and Timeless!
